TESTIMONIALS

White Hat Project

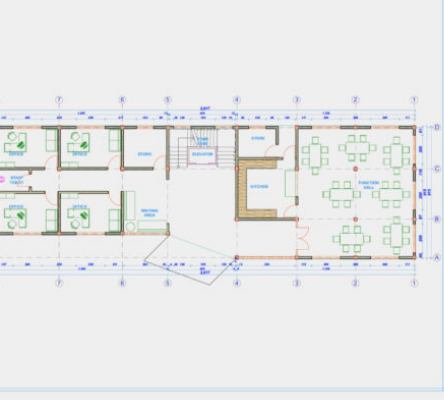

I thank you K2 Adventure for the help that you gave me, food, shelter and other small expenditures for my baby since I delivered till now. I take this opportunity to ask you for your continuous assistance so that I may be able to depend on myself and succeed in my life.

-Siya Joseph

I am 18 years old, I have a little boy named Calvin. I am glad to get this opportunity to say thanks for your help to deliver my baby safe my Almighty God blessing you, also I am happy St Joseph helps me to get my basic needs like shelter, food, and clothes until the delivery of my child. I learned many things from them, like how to care for my baby and stay with my society.

What Is The White Hat Project

Our goal is to build a safe, peaceful and nurturing environment for young sexual assault victims who have been excluded from their tribes or families. The facility will support and educate up to sixty young women during their pregnancy and provide prenatal medical care for their unborn child. The White Hat Project (WHP) will give these young women a place to recover during their pregnancy as well as prepare them to successfully re-enter Tanzanian society. In addition, the mothers will receive emotional, physical and economical support with a vision towards independence and life-long success.

We Will Provide

- Inclusive Accommodations: 2 meals per day, room, board, water, electricity and clothing
- Psychological Counseling and Spiritual Support
- Emotional Assistance: understanding forgiveness, acceptance and hope for the future
- Feminine Health Care: menstruation, lactation and disease prevention
- Vocational Training: beading, cooking and tailoring life skills
